

Rohde & Schwarz

Service that adds value

R&S® Service Level Agreement for R&S® CEMS100

ROHDE & SCHWARZ

We make sure
your system
runs and runs
and runs.

And offer advantageous service level agreements to ensure maximum availability.

Rohde&Schwarz offers turn key solutions for EMC and field strength test equipment, from standalone instruments to customized turnkey system solution.

An R&S®Service Level Agreement moreover ensures long-term availability and operational readiness of your systems. Our high-performance service is tailored to meet your specific requirements. You profit from our flexible service concepts and transparent costs.

R&S®Service Level Agreement: qualified service you can count on

We lay the groundwork for top performance in your core business – that’s our primary focus at Rohde&Schwarz. That’s why we back up our high-quality, long-lasting products with our service level agreement, providing you with exceptionally reliable service that helps you control your costs. Which leaves you to concentrate on what’s important.

Let us advise you, and then you decide which of the attractive service packages is right for you. Benefits at a glance:

Regular product maintenance	optional	optional	optional
Training	optional	optional	optional
Calibration Service	optional	optional	optional

Service package details at a glance:

Rohde & Schwarz Support Desk: 24/7 problem reporting and overview of your requests

The Rohde & Schwarz Internet portal lets you submit a support request around the clock from anywhere in the world. You can check the status of your request at any time via the Rohde & Schwarz Internet portal.

Technical support and response times during business hours

Your support request will be received by the Rohde & Schwarz support team during business hours (Central European Time, GMT+1). A qualified service technician will handle it within the response time defined by your service package. Depending on the type of problem, the technician will initiate additional measures to find a solution.

Maintenance releases (software updates)

Software updates maintain and optimize the performance of your product/system.

Software upgrades

Software upgrades include the implementation of changes according to the relevant specification or standard.

Verification on Rohde & Schwarz reference systems

Rohde & Schwarz Support will verify support requests on Rohde & Schwarz reference systems in order to reproduce the reported problem. Rohde & Schwarz has a wide range of reference systems and measurement instruments at their disposal.

Repair services for Rohde & Schwarz products

Cover all repair costs (time and material costs) plus the cost of shipping through Rohde & Schwarz logistics partners.

Arrangement of repair for 3rd party equipment

Arranging of repair for 3rd party equipment including de-installation, shipping and re-installation. Repair costs are born by the customer.

Hardware loan service for Rohde & Schwarz products

Access to the hardware loan pool to minimize downtime. Hardware loan items will be released for express shipment within the response time. Shipping costs when using Rohde & Schwarz logistics partners are covered by the Rohde & Schwarz SLA.

On-site support

When technical problems cannot be solved via remote access or by repairing or replacing product/system components, Rohde&Schwarz will send a highly trained service technician to the customer site. Any travel expenses are invoiced separately.

Local spare parts pool

To ensure maximum system availability, you also have the option of maintaining an on-site supply of the most critical spare parts. Rohde&Schwarz will design a proposal tailored to your system.

Regular maintenance of your Rohde&Schwarz products

Regular inspection and preventive maintenance of your system is performed by a Rohde&Schwarz service technician.

This service includes, for example:

- System performance optimization
- Firmware/software updates
- Log message analysis
- Hardware maintenance

Any travel expenses are invoiced separately.

Training

Rohde&Schwarz follows the standardization and is able to provide this knowledge in terms of a training. Rohde&Schwarz will provide a trainer who will be able to adjust the training to customer needs and will train on the basic, expert and advanced level of the CEMS100 knowledge.

There are three training levels:

- Basic level (no prior knowledge required)
 - Expert level (R&S®EMC32 knowledge required)
 - Advanced level (R&S®EMC32 knowledge and EMC testing experience required)
- Customized training can be provided (e.g. preparation for accreditation audit)

Training can also be provided at the customer premises. In this case, any travel expenses are invoiced separately.

Calibration service

On customer request Rohde&Schwarz can also provide a calibration service. Details to be defined and subject to a separate offer.

Service that adds value

- | Worldwide
- | Local and personalized
- | Customized and flexible
- | Uncompromising quality
- | Long-term dependability
